Mr. Raymond H. Gerende

Dear Mr. Gerende:

Reference is made to your contract with the United States Government, as represented by the Contracting Officer, effective 1 October 1955, as amended.

Effective 1 July 1965 said contract, as amended, is further amended by deleting the figure \$6000 from the first sentence of paragraph one (1) entitled "Compensation" and substituting in lieu thereof the figure \$6500.

Effective 1 October 1965 said contract, as amended, is extended for a period of one (1) year.

All other terms and conditions of the contract, as amended, remain in full force and effect.

LOCATION

AGENCY TASK

GERENDE was recruited in March 1955, just prior to his graduation from the Mexico City College. He was trained as a member of a surveillance team, and was also used as an investigator to collect operational data on persons and organizations of interest to the Station. He quickly demonstrated a capacity for leadership and at one time was leader of the team.

He was also used as a basehouse keeper in an audio operation and processor of tapes. He excelled in this type of work because of his bilingual Spanish/English facility, and, more importantly, due to his diversified experience in clandestine operations which permited him to spot operational leads.

Since 1958 his primary use has been as main cutout/principal agent to a group of photographic basehouses targeted against the Soviet Embassy, and one mobile photographic truck. He processes the raw photographic take and services the majority of the accomodation addresses used by the Station. He has contributed significantly to the AMROD operation

He performs all his tasks in a professional manner. He is well suited to intelligence work, and plans to make KUBARK his career. The Station depends heavily on him because of his knowledge of Mexico, and his mobility as a Mexican. He works full time for KUBARK; cover company requires very little time.

In case of "New Hire" give a personality assessment in terms of capability, attitude, and projected suitability; state names of Division personnel who have interviewed him; give account of his performance in current non-Agency job.

sbout the incident and has twice stated that nothing of this nature would happen again. With the reality of future ICFIUTTER tests set firmly in OERENDE's mind, it is believed that he will not attempt any such action again.

As to what can be done of a positive nature (other than periodic re-LCPLUTTER) to prevent recurrence it must be noted that GERENDE kept apart the 2 100 pages which were really still charged to him and the Station had no way of knowing that the money had been returned to him by the basehousekeeper. Only when the close down of the LLLTETY/LILYRIC basehouse would be effected would the Station expect to have the rental deposit returned. Until such time the deposit would remain charged to GERENDE. The only way to completely safeguard against this type of action would be for the cause officer to meet directly with the basehouse keepers, thereby eliminating GERENDE from the operation and causing unacceptable security risks. It is believed that periodic LCPLUTTER of GERENDE is the best insurance against a similar occurence in the future.

As to GERENDE's regular operational revolving fund, irregularities have never been discovered in his handling of these funds. Cash counts are conducted by the case officer to control the unspent portion of the revolving fund by comparison with accountings (receipts) GERENDE takes every two weeks. GERENDE's revolving fund is kept at the minimum amount consistant with efficient conduct of the operation for which GERENDE is responsible.

The "other false claims" GERENDE admitted making involved occasional use of his QP vehicle for personal driving while entering all receipts for gas on his KUBARK accountings. Station does not consider this a major problem. If GERINDE used his QP car for only operational employment any hostile surveillance of him would be relatively easy (i.e., surveilling only when he is using his QP vehicle) and it is believed that latitude must be allowed in this area for indigenous agents.

2. In the area of GERENDE's morals and his statement that he "is not being utilized to his full potential" the Station is as fully concerned as Readquarters. It should be noted however, that GERENDE has never written the report setting forth what he thinks he can do and when prodded on this has stated that he had been thinking about what additional work he could assume and that he "just does not know". The reason he gives is he does not know what else is being done in the operations area other than that to which he is already exposed. Additional operational work is assigned to GERENDE when this can be done securely and taking into account compartmentation of operations. An example of this was his introduction to the AMROD operation. Station is reluctant to expose GERENDE to additional operations only for the purpose of "improving his morals" since he already has considerable knowledge of many Station past and going operations. The Station appreciates Headquarters comments on the results of GERENDE's LCTIVITER and will make every effort to determine the best possible utilization of GERENDE in the future.

GERENDE ACTION REGULED - REFERENCES REF: IMHW-12065 1. Reference is made to the results of the LCFLUTTER interview of Raymond H. GERENDE which was held on 8 October 1963. Headquarters would like to have a progress report on what steps have been taken by the Case Officer with regard to the 2,100 pesos which he had kept but belo ged to KUBARK. Headquarters is also interested in what has been done about other false claims he admitted making in his accountings, and what precautions are being taken to see that this does not continue in the future. 2. The Station's comments are requested on GERENDE's statement that he is not being utilized to his full potential and that he often has free time. Readquarters would be interested in seeing a copy of the report which the LCFLUTTER examiner suggested he write, setting forth what he (GERENDE) thinks he can do and what he would like to do. Headquarters considers GERENDE a valuable long term asset with staybehind potential, and it is hoped that the Station will do what it can within the limits of security, to raise his murale and see that KUHARK is receiving full benefit of his services. ### Mr. Raymond H. Gerende

#### Doar Mr. Gerende:

Reference is made to your contract with the United States Government, as represented by the Contracting Officer, effective 1 October 1755, as amended.

Effective 1 July 1959, the amendment effective 1 July 1959 to said contract is revised to read as follows:

- (a) The figure \$4080 is deleted from the first sentence of paragraph one (1) entitled "Compensation" and in lieu thereof the figure \$4560 is substituted...
- (b) The following paragraph is added after paragraph tet. (10), entitled "Term":

"Il. Terminal Fayment. In the event your contractual relationship with the Government hereunder is severed for one of the reasons set forth below, you, or your estate, will be entitled to a terminal payment of one (I) month's compensation for each full year of your utilization by the Government after 18 March 1755. Said amount shall be calculated at the contractual rate of compensation applicable at the time said payment becomes due."

- (a) Said contract is terminated by the Government under subparagraph (a) of paragraph ten (10) above, or
- (b) Said contract expires and is not renewed by the Government, or
- (c) Your resignation hereunder is accepted by the Government as being in its best interests (the Government's determination as to what constitutes its best interests shall be final and conclusive), or
- (d) In the event of your death during the period said contract is in effect.

All other terms and conditions of the contract, as amended, remain in full force and effect.

You will please indicate your approval by signing in the space provided below.

Dear Mr. Gerende:

Reference is made to your contract with the United States Government, as represented by the Contracting Officer, effective 1 October 1955, as amended.

Effective 1 July 1959, the amendment effective 1 July 1959 to said contract is revised to read as follows:

- (a) The figure \$4080 is deleted from the first sentence of paragraph one (1) entitled "Compensation" and in lieu thereof the figure \$4560 is substituted.
- (b) The following paragraph is added after paragraph ten (10). entitled "Term":

"il. Terminal hayment. In the event your contractual relationship with the Government hereunder is severed for one of the reasons set forth below, you, or your estate, will be entitled to a terminal payment of one (1) month's compensation for each full year of your utilisation by the Government after 18 March 1355. Said amount shall be calculated at the contractual rate of compensation applicable at the time said payment becomes due."

- (a) Said contract is terminated by the Government under subparagraph (a) of paragraph ten (10) above, or
- (b) Said contract expires and is not renewed by the Government, or
- (c) Your resignation hereunder is accepted by the Government as being in its best interests (the Government's determination as to what constitutes its best interests shall be final and conclusive). or
- (d) In the event of your death during the period said contract is in effect.

UNITED STATES GOVERNMENT

All other terms and conditions of the contract, as amended, remain is full force and effect.

MEMORANDUM FOR THE RECORD:

SUBJECT \* Centract for GERENDE

In reviewing the last contract amendment, it came to note that CPD was deleting the original compensation figure of \$3600 instead of the figure sent by the Station which was \$4080. In checking this cut, we find that we have no copy or notification of the amendment dated 1 September 1957 increasing his salary from \$3600 to \$4080. CPD is rewritting the contract without using a compensation figure for the amount to be deleted.

When we send this to the field, ask them to send us a copy of the contract amendment, dated 1 September 1957. Also inform them that they are to execute and retain the original copy of this new contract amendment. It may be well to point but that Subject's termination clause stimpulates that he will received this benefit only if we terminate the contract.

MEMORAHDUM FOR: Chief, Contract Personnel Division

SUBJECT : Contract Amendment for Raymond ?. GERENDS (ps)

1. It is requested that Raymoni N. GRENDE's contract, effective 1 October 1955 (as examined), be further smended to provide him with compensation at the annual rate of \$4,500, effective 1 July 1959. It is also requested that a termination clause, effective 13 March 1955, be written into his contract stipulating that GERSWO3 will receive a termination payment of one month's aslary, calculated at the provailing rate of compensation at the time of his termination, for each full year of his employment with the U.J. Government. GERENDE was employed by Station on 18 March 1955 under provisions of an oral agreement. All other provisions of its contract should remain in force.

2. GERENE is covered by the LIESTY Project which was assended to include the above commitments to GERENE and approved by Chief, FI on 10 July 1959

- 1. It is requested that sproval be granted to smend Haysand H. GERFNDE's contract to provide him with a termination settlement of one month's salary for each full year that he works for KUZAKK and to raise his salary effective July 1959 from \$4,080 to \$4,560.00 per year. His last salary increase was granted on 1 September 1957. The date, 18 March 1955, has been suggested by the Station as the beginning date for the computation of GERENDE with the necessary incentive to make KURACK a career and at the same time will give the Station an additional element of control.
- 2. As pointed out in the LIMPTT Project Approval, CERMIDE, an indigenous agent, is one of the Station's most valuable assets. He has a responsible full time job as the LIEMPTT Principal Agent who handles the LIMITED, LIMBUC and LICALLA base houses, the LIEMTRAP operation, the outside photographic processing and translation service and all the agents participating in these activities. He performs his duties in a consciputious and professional manner and his already excellent abilities are showing continued improvement.
- 3. Honey was already allocated in the LIEPTY Project approval for the salary increase. With the effective date of 13 March 1955, for the termination clause, UERCHIE will already have accrued \$1,520 (his salary is \$4,500 per year) if he should resign today. The LIEPTY Project, as approved, has sufficient funds to cover this cost if it is necessary to obligate this amount during the present Project year. Therefore, no additional funds are requested.

s bedding Gift for Raymond H. SMERIE (ps), Contract Agent

1. It is requerted that Station be authorized to give Asymond H. JECANE (ps), as a wedding gift, two simplane tourist class tickets

Although this trip ms appear to be a generous and unusual wedding gift, the Station considers it is some than justified in view of JECANE's outstanding performance of his duties for the Station and his future value as a principal agent.

UKRENDS has been working for the Station since rebruary 1955.

2. The Station estimates that the cost of the plane tickets will be \$600.00. The LIP.TICK Project, which covers watchie, can absorb this added expense.

# OPERATIONAL SECURITY REVIEW OF KAYMOND H. GERENDE'S OPERATIONS AND ACTIVITIES

	Aggr	esult of the June 1958 LIPSTICK flap, it was decided by the Chief

2.	PURPO	SE ,
	The pu	rpose of this operational security review is threefold:
	a.	To identify possible security problems and conditions;
	b.	To establish a framework for recommendations which will
		result in the Station's submission of a new support project
		(LIEMPTY) with Raymond H. GERENDE as a principal agent; and
	c.	To acquaint the new case officer with the operational problems
		and agent personnel with which he should have a comprehensive
		knowledge and detailed understanding.
3.	PRINC	IPAL AGENT - Raymond H. GERENDE
	ىرىنى <u>ا سەرىدىدە دوران</u> ى	
	<b>a.</b>	Background - GERENDE has been employed by KUBARK since
		rch 1955, which was just prior to his graduation from the Mexico
		ollege but in the Station's opinion,
		ature, experienced and dedicated KUBARK contract agent. During
		ee and one-half years that he has been working for
		cation, GERENDE has participated in a varied assortment of support
	and in	telligence operations. Initially, he was trained and used
		as a member of the LIPSTICK surveillance team. In addition,
		veillance work, he was used as an investigator to collect operational
		n persons and organizations of interest to the Station. He quickly
		strated a capacity for leadership and at one time was the leader of
	the LI	PSTICK team. He has been used as a LIFEAT Base House operator

and processor of tapes; he has excelled in this type of work because of his bi-lingual Spanish/English facility and, more importantly, due to his diversified experience in clandestine operations which permits him to spot operational leads much more readily than the average LIFEAT monitor.

- Duties GERENDE is currently serving as the principal agent in charge of LIMITED, LICALIA, LIPSTICK Photo Truck, LIJERSEY Surveillance Team and LILYRIC. In addition, he monitors and processes the BGMORNING and Cuban Extles LIFEAT taps. He also supervises the photographic processing of LIPSTICK-38 (his brother-in-law) and the translation work of LIPSTICK-40 (his sister). He maintains contact with and provides administrative support to LIMITATIONS 5 and 6. LICOOL-7 Base operators. Outre obviously GERENDE's many duries overlap the bounds of several Station operations, namely LIPSTICK, LIJERSEY, LIFEAT, LICOOL and several activities which are not listed under formal projects such as BGMORNING. It is recognized by the Station that it is not advisable to have one principal agent connected with as many operations as is GERENDE. However, the present scarcity of both staff and contract agents of the principal agent type necessitate such efficiency measures. Every effort is being made to compartment the various segments of GERENDE's operations and to decrease, and to eliminate where possible, all lateral communications between agents.
  - Security Problems The most serious security situation surrounding CERENDE and his many activities is the fact that LIPSTICKS 12 and 30 (two of the LIPSTICK Team members arrested in the June 1958 flap) know GERENDE by true name, and knew that he also worked for KUBARK. In fact, LIPSTICK-30 is a close personal friend of GERENDE's and was originally recommended for KUBARK employment by GERENDE. The operational security hypothesis that can be constructed from these existing acquaintances are too numerous to list in this brief review; suffice to say that should GERENDE be arrested by one of the local police agencies, most of the remaining support assets would be destroyed or so seriously compromised that the Station would indeed be foolish to continue using them. It is appropriate to state here, however, that neither GERENDE nor the Station believes that GERENDE has yet been named or otherwise identified as a result of the LIPSTICK flap. It is granted though that any future questions by one of the local police agencies to the compromised LIPSTICKERS represents a continuing type of danger for GERENDE Based on the duties which GERENDE is currently performing, the readers of this review can well imagine what the consequences to several operations

would be if GERENDE were arrested by one of the local police agencies and interrogated in detail. Also, the Station must forever be aware that the local police agencies are certainly capable, for only a few dollars, of selling information concerning KUBARK to the Soviets and/or Satellites.

d. Recommendations - It would be unwise to consider terminating GERENDE since he is a highly competent agent and since his termination would not eliminate the fact that he knows a great deal about the Station's support operations. He has been reminded several times, and the Case Officer will continue to remind him, that his tradecraft professionalism must improve and stay ahead of the increasing sophistication of the local police agencies and opposition services

It is the opinion of the Station that GERENDE should continue to be used in about the same manner that he is presently being used. It would be advisable, however, to separate him from the two LIFEAT functions he is currently handling, BGMORNING and the Cuban Exile taps. This is suggested not only because of the possible future security ramifications, but also because GERENDE does not have time to run properly his support mechanism and to monitor taps seven days a week.

To provide for a situation whereby one of the local police agencies becomes aware of GERENDE's illegal activities and assuming that either GERENDE or the Station learns of this before the local police agency can take positive action, it is imperative that a warning system of communications be established to facilitate GERENDE's removal

could be set up or local arrangements could be made with ODUNIT or ODOATH for a more expeditious exit

The Case Officer will develop this plan in detail.

## 4. OPERATIONS

# a. Limited

- (I) Target Stationary photographic surveillance of persons entering and leaving the LIMERICK installation.
- (2) Personnel LIPSTICK-14 is the agent in charge of the LIMITED Base. According to GERENDE, LIPSTICK-14 is conscientious, security minded, speaks no English, and on occasion is a bit over confident. He performs his operational duties competently and with discretion. In addition to his photographic duties, he is also used occasionally as a one-man

· 人名斯勒克斯基斯特人

foot surveillance to follow individuals leaving the LIMERICK installation, LIPSTICK-14 receives a monthly salary of \$1,800.00 (MN) and free rent and utilities at the LIMITED Base. His wife (LIPSTICK-27) and son (LIPSTICK-28) live with him at the LIMITED Base.

LIPSTICK-28 until 15 July 1958 assisted his father with photographic work at the LIMITED Base. However, on the above date he decided to resign from his LIMITED job and, strange as it may seem, to devote full time to working on a chicken farm. LIPSTICK-28 made this decision on his own and against the wishes of his father. He will continue to live at the LIMITED Base and it is believed that no security problems will result, since any security difficulties could adversely affect his mother and father. Although LIPSTICK-28 has been terminated and a termination report forwarded to Headquarters, it is suggested that we maintain his operational approval since he continues to live in the LIMITED Base.

(3) Communications - At the present time GERENDE meets				
with LIPSTICK-14 at contact points away from				
the Base. They have contact points which are				
used for their meetings. Usually the place of contact is pre-				
arranged at the previous meeting; however, a rapid means of				
communication exists whereby GERENDE telephones LIPSTICK-14				
and through a pre-arranged open code,				
numbers, sets the time and place of contact. LIPSTICK-14's				
overt occupation is				
consequently, there is a cover basis for such a telephonic				
conversation. A reserve system of communication with LIPSTICK-14				
has not yet been arranged. GERENDE has been instructed to do				
this as soon as possible, thereby giving the Station a means to				
contact LIPSTICK-14 directly should the need ever arise.				
•				
(4) Security - Excluding KUBARK staff personnel, the LIMITED				

Ease is known to LIPSTICKS-2, 14, 27 and 28 and to and Raymond H. GERENDE and possibly to LIPSTICK-12 (GERENDE's opinion). Since LIPSTICK-14 has known LIMEWATER (LIPEAT Project) for many years and since LIMEWATER is LIPSTICK-2's brother, it is important to recognize that the desirable degree of compartmentation between LIPSTICK/LIMITED and LIPEAT probably does not exist. Although LIMEWATER must be aware of LIPSTICK-14's and 2's PRPRIME employment, it has not been possible to ascertain the extent of LIMEWATER's knowledge about their specific activities, and vice versa. LIPSTICK-14

	worked with (LIMESTONE) during WW-II:
	however, he claims that the only members of family
	that he ever met was clieged wife." Since she saw
	him only one time many years ago, LIPSTICK-14 does not
	believe that she would recognize him now.
	Neither GERENDE nor LIPSTICK-14 are aware that KUBARK
	owns the LIMITED base House. The extent of their knowledge
	is that LIMOUSINE is the owner and we simply rent from him.
T	(5) Recommendations - It is recommended that GERENDE
	continue to meet with LIPSTICK-14 and to supervise his operation.
	In this connection, GERENDE has been instructed to reorganize
<b>张松小、松枫</b>	his existing communications arrangements with LIPSTICK-14 to
	include a new regular system, a rapid non-scheduled system and
	a reserve system.
	The ALGORY & BYDICINIA
	LIPSTICK-14 was instructed on 8 August 1958 to cease all
	social and business contact with LIPSTICK-2.
	who has previously handled LIPSTICK-14 and sees
	him occasionally even now, has been directed to cease all
	contact with the LIMITED Base and LIPSTICK-14 except when
	approved by the Case Officer. (NOTE: It is necessary at times
	to debrief LIPSTICK-14 for LIMESA leads).

manages and directs the LILYRIC Base through LIJERSEY-5. LIJERSEY-5 maintains direct contact with LIJERSEY-2, the

Base House operator, and his wife, LIJERSEY-12, who does most of the photographic work. LIJERSEY-5 is a PBPRIME citizen. He is paid a monthly salary of \$1,000.00 (MN).

LIJERSEY-2 is the LILYRIC Base operator. He is a Captain in the Mexican Army Reserve and is also employed

as an industrial engineer. He receives a monthly salary of \$1,000,00 (MN) and he and his wife live remaind utilities free in the LILYRIC Base.

LIJERSEY-12 is the wife of LIJERSEY-2. She does most of the photographic and reporting work at the LILYRIC Base and has proven herself to be a capable and worthwhile asset. It has been necessary for her to become proficient in the LILYRIC work since her husband works at his regular job during the day. She receives a monthly salary of \$800.00 (MN).

at prearranged car contact points and receives the "take" from the LILYRIC Base. On occasion GERENDE has contacted LIJERSEY-2 directly, but this procedure is used only when LIJERSEY-5 is out of town or otherwise not available. GERENDE does not know LIJERSEY-12 or vice versa. No reserve system of communications exists whereby a Station officer could contact LIJERSEY-2 directly should the need arise; however, GERENDE has been instructed to set up such a system of communications. The same will be done with LIJERSEY-5, although he is known to several Station officers and little difficulty would be experienced in contacting him directly.

- (4) Security The security of the LILYRIC Base appears, at least on paper, to be in better shape than the Limited or LICALLA Bases. Insofar as the Case Officer has been able to determine, the only indigenous agents aware of the LILYRIC Base are GERENDE, LIJERSEYS 2, 5 and 12, and LIPSTICKS 38 and 40, and all of these individuals have a close connection with the operation of the Base. The only tie-in the LILYRIC Base has with the LIPSTICK operations is through GERENDE.
- (5) Recommendations GERENDE has been instructed to change his meeting plans with LIJERSEY-5 and to review the communications set-up between LIJERSEY-5 and LIJERSEY-2 (L-5 and L-2 are long-time friends and, consequently, the cover problem is minimized). A staggered schedule of coverage of the LIMERICK target between LILYRIC and LIMITED was initiated on 18 August 1958. Although the operators of these two bases are unaware of the existence of the other, a suitable cover story has been worked out to satisfy any

curiosity that LIPSTICK-14 and LIJERSEYS-2 and 12 may have. This procedure is believed desirable due to the confining nature of the photographic tasks and the lack of additional personnel to assist at each of the bases. Also, this staggered schedule of coverage should reduce some of the duplication presently coming in from the two bases.

### c. LICALLA

- (1) Target Stationary photographic surveillance of persons and activities in the garden area of the LIMERICK installation.
- (2) Personnel LIPSTICK-39, his wife and three small children live at the LICALLA Base. He is an and works at his cover job in the evenings. LIPSTICK-39 does an excellent and conscientious job of photographic coverage at the LICALLA Base. In addition to the photos he takes, he writes a narrative description of the events which take place in the target's garden area. He receives a monthly salary of \$2,000,00 (MN) and free rent at the LICALLA Base.
  - (3) Communications GERENDE meets LIPSTICK-39 twice

    weekly,

    contact points, one of which is selected at each meeting for

    use for the next meeting. In the event that contact is not

    established, GERENDE has the initiative in contacting

    Then, by

    prearranged open code, a meeting site and time are agreed on.

    Since

    is also acquainted with LIPSTICK-39,

    it would be possible to contact him through

    something happen to GERENDE. However, to facilitate proper

    and secure communications procedures, GERENDE has been

    directed to establish a reserve system of communications with

    Lipstick-39, using the customary oral and physical bonafides.
  - (4) Security The most serious security problem concerning LICALLA is the fact that LIPSTICK-39 is the brother of LIPSTICK-47

Although it is generally believed by Station officers that LIPSTICK-39's name was not mentioned by LIPSTICK-47 nor that any indication was given concerning LIPSTICK-39's job, it must be understood that should the local police agency interrogate LIPSTICK-47, the probability exists of compromising LIPSTICK-39 and LICALLA. The Station sees no way to overcome this possibility.

1.22

It is important to note here that LICALLA occupies one of the four LIMUST properties. While it is believed that LIPSTICK-39 does not know that KUBARK owns the Base or has anything to do with the other three houses, it is entirely conceivable that should one of the local police agencies or the LIMERICK personnel become aware of LICALLA activities, they could very easily arrive at some logical conclusions about all of the LIMUST property. This would be detrimental, if not fatal, to our aims. However, another Station viewpoint on this same problem is that if compromised. LICALLA would divert suspicion from, rather than to, LIMUST. Should one of the local police agencies begin an investigation which might involve LIMUST and LICALLA, then LICALLA could be sacrificed to protect the LIMUST Base. These possibilities become somewhat theoretical and perhaps impractical due to the lack of predictibility of the local police agencies, but nevertheless must be weighed one against the other.

大学を

In view of the apparent importance of the LIMESA/LIMUST operation a lot of thought and discussion have transpired at the Station about continuing the LICALLA operation in its present location or suspending it for the immediate future and attempting to find another suitable location away from the LIMUST property. A sound argument can be made for terminating the base since such an alternative might have the effect of limiting any knowledge LIPSTICK-39 may have about the LIMESA/LIMUST installation. However, the termination of a productive base such as LICALLA would require an explanation to LIPSTICK-39 which could not help but leave him a bit suspicious. For Headquarters information, the local rental laws are such that LIPSTICK-39 would not be able to comprehend why we did not insist on him maintaining "squatters rights" (as stated previously, LIPSTICK-39 apparently does not know that we own LICALLA or even have an interest in any of the other LIMUST properties which can easily be done Therefore, any attempt to terminate LICALLA might cause more of a security problem with LIPSTICK-39 than permitting LICALLA to operate as it is now. Another possibility would be terminating LIPSTICK-39 and putting another agent in the present LICALLA Base. If this measure were followed, it would not eliminate the fact that LIPSTICK-39, even if terminated, would still know of the existence of the present LICALLA Base. Still another possibility would be to terminate LIPSTICK-39 and the LICALLA Base; however, since LICALLA and the other LIMUST properties are ostensibly owned by one man, LIMOUSINE, suspicions and investigations could still lead to LIMUST.

(5) Recommendations - The Station is inclined not to "rock the

One alternative appears to be about as good as another in this case, and it is an acknowledged fact that LICALLA, at its present location, is a worthwhile and productive asset. Headquarters ideas and comments on the LICALLA Base would be appreciated.

At the present time it is planned to move LIPSTICK-39 and family to a furnished apartment when the time comes to remodel the LICALLA Base. After completion of the remodeling, LIPSTICK-39 and family will return to the present LICALLA Base.

# 4. PHOTO TRUCK

- (1) Target Investigative asset used for taking curreptitious photographs of persons, places and things that are from time to tune of interest to the Station and Headquarters.
- Personnel LIPSTICK-2, as indicated by the low numerical designation of his cryptonym, has been employed by KUBARK for general years. At the present time LIPSTICK-2 is responsible for the day-to-day operation of the photographic surveillance truck. He is also used occasionally to apot and rent spartments. In the past, LIPSTICK-2 has served as team leader of a low level surveillance team (which was compromised and subsequently disbanded), as a LIFEAT line inspector (when he was not busy with the photo truck), and as a start surveillance man (i.e., used as an outside sentry during the March 1958 entry of the LIMUST Base by KUTUBE/D, KURIOT and KUCLUB technicians. (NOTE: LIPSTICK-2 was assigned the task of watching the entire area during the day for any unusual activity on the part of target personnel. He was not told that he was to watch a specific house. He was dismissed from his static surveillance before dusk and the Headquarters technicians did not enter LIMUST until after 2030 hours.) LIPSTICK-2 is the brother of LIMEWATER (LIPEAT Project) and LIPSTICK-34 (LIPSTICK Surveillance team member) is LIPSTICK-2's wife's nephew. LIPSTICK-2's cover is buying and selling cars; however, about the only business he has in this connection is when he buys and sells cars for KUBARK. His cover is quite weak. He receives a monthly salary of \$3, 200,00 (MN) plus \$600,00 (MN) per month for the use of his personal car.

SECRET

LIPSTICK-24 does not know GERENDE and, preaumably, knows only LIPSTICK-2, with whom he works on the photo truck. His cover is as a salesman of electrical appliances; however, he does not pursue his cover job to the desirable extent. LIPSTICK-24 was recruited by LIPSTICK-2 about one year ago and is currently receiving a salary of \$1,000.00 (MN) per month. Since he has now worked a year for the Station, and performed satisfactorily, his salary should be raised to \$1,200.00 (MN) per month (LIEMPTY will provide for this increase).

(3) Communications - GERENDE meets LIPSTICK-2
week. These meetings are arranged
nlace at previously selected contact points
LIPSTICK-2 also knows GERENDE's true name, where he lives, and
his phone number. In the past he has had occasion to telephone
CERENDE at the latter's home. LIPSTICK-2 knows and
could, in an emergency situation, contact However,
GERENDE has been instructed to arrange a complete communica-
tions plan with LIPSTICK-2, including a reserve means of contact.
For security reasons, GERENDE has been instructed to inform
LIPSTICK-2 that his only contact is with GERENDE and that in
the future he is not to contact anyone else in the organization
without GERENDE's permission. Also, that should contact with
GERENDE be disrupted, he is to await for the higher echelon to
establish contact with him (all agents under GERENDE are being
so instructed). This is particularly important in the case of
ipstick-2, since he has by-passed GERENDE in two or three
instances in the past.

**通知。如此知為** 

Security - Probably the most serious security situation involving the photo truck, LIPSTICK-2 and Lipstick-24 is the basic knowledge of the LIPSTICK surveillance team that such an asset exists, even to the point that one of the team members (LIPSTICK-34) is the listed owner of the photo truck. The personal knowledge of LIPSTICK-2 about the LIFEAT operation also represents a security hazard of the first class. For example, if LIPSTICK-2 were compromised and arrested as a result of his activities, there is a possibility that he could compromise his brother. LIMEWATER, the LIMITED Base and LIPSTICK-14, GERENDE and our interest in the highly sensitive LIMESA/LIMUST operation. (NOTE: According to the LIFEAT Case Officer and the former LIPSTICK Case Officer, both LIMEWATER and LIPSTICK-2 have been reminded on several occasions during the past few years that they were not to discuss any aspect of their operations with each other. Also, LIPSTICK-2, to the best of the Station's

knowledge, does not know the location of any of the LIFEAT Base houses).

A new truck should be purchased as soon as possible to replice the present truck. The new truck should be purchased in an assumed name and vehicle papers should list an untraceable address. LIPSTICK-2 has already been informed that he is to have no contact with LIPSTICK-14 or any other operational personnel he may know except, of course, LIPSTICK-24, with whom he works, and GERENDE, who supervises his activities. In addition to the above, the Station should begin thinking about a replacement agent for LIPSTICK-2 and every effort should be made to set up an independent and compartmented photo truck operation. This would permit the eventual termination of LIPSTICK-2, after we have given him several months to reduce his knowledge of current operations.

# d. LIJERSEY

(1) Target - Poot surveillance and investigative support of other Station operations.

Personnel -LIJERSEY-4 to of a low social class and lives with his mother the sole support for his mother and several younger brothers and sisters. He is described by GERENDE as having a lot of ambition and a strong desire to improve his standard of living and position in life. The Station has found him to be a good observer and, consequently, adequate for static surveillance work. Although he now has his drivers license, he is not a capable driver and probably will never develop into one. GERENDE has been encouraging LIJERSEY-4 to obtain employment to supplement his KUBARK income of \$1,000.00 (MN) and to establish himself in a cover job. However, LIJERSEY-4 has not yet obtained such employment. It is the Station's opinion that LIJERSEY-4 is definitely an asset of limited value and will never develop into the high-calibre surveillance asset which the Station really needs.

LIJERSEY-8's situation is about the same as LIJERSEY-4's. He lives with his family and is currently taking highschool courses (LIJERSEY-4 is doing the same). He is not an imaginative talker and has difficulty making up cover stories and spur-of-the-moment excuses and explanations - the vital qualifications for a good surveillance man. He is the best driver of the three LIJERSEY

C D / D C T

team members and with more practice will probably develop into a capable and dependable driver. LIJERSEY-8 has recently shown a commendable amount of initiative where his cover situation is concerned. He has obtained a job

according to GERENDE, is making a substantial amount of "pin" money. However, as in the case of LIJERSEY-4, LIJERSEY-8 is at best an asset of only limited value. LIJERSEY-8 also receives a salary of \$1,000,00 (MN) per month.

LIJERSEY-13 does not know LIJERSEYS-4 and 8 and vice versa. LIJERSEY-13 is better dressed than the other two team members and can pass as a better educated and more socially flexible individual. He speaks fairly good English. He performs pretent investigation assignments with facility and imagination and is adept at making up cover stories. In brief, he makes a good impression on the people he interviews. He is not a good driver and is too nervous to develop into one. His salary is \$1,000,00 (MN) per month.

to a	ontinue going to their meeting	<b>s</b> ites

setting up new and more complete communications arrangements with the three LIJERSEYS.

(4) Security - Insofar as knowledge of other operations, personnel and assets is concerned, the LIJERSEYS appear to have the best security of any of the operations handled by GERENDE. New communications plans with the LIJERSEYS will do much toward increasing security and ability to meet contingencies. GERENDE will be instructed to give refresher training to all three LIJERSEYS in operational security, cover and communications. The major danger existing with the LIJERSEY team, and with any surveillance team, is the possibility of compromise and arrest by one of the local police agencies. Should this happen, GERENDE and his other operations would be placed in considerable danger.

For this reason, it is not advisable to have GERENDE connected with a surveillance team and also contacting and directing the sensitive photo base houses. Therefore, until such time as a suitable asset can be developed or acquired to take over the LIJERSEY team, their actual surveillance assignments will be kept at the minimum.

Recommendations - It is suggested that the LIJERSEY framework be used for the recruitment of at least three competent and higher class local nationals for use on surveillance assignments. After the recruitment of such individuals, it may be suggested that LIJERSEYS-4 and 8 be terminated. LIJERSEY-13 should remain as an independent investigative asset to conduct "credit" and other type of inquiries which he can do without help from other agents. LIJERSEY-5 has already been asked to spot prospective candidates of a higher social standing for use on a new surveillance team; however, even under optimum conditions, one and a half years will be required to get such a team functioning. In order to recruit the type of team member that will be most worthwhile to the Station, we must plan to pay a minimum starting salary of \$1,600.00 (MN) per month. The cost of living in Mexico is continually on the rise and where \$1,000.00 (MN) was a good salary one to two years ago, it really is not adequate today,

repairmen and others who might accidentally discover one of our LIFEAT taps. Also, should GERENIDE be compromised through any of his other operations, it is conceivable that the EGNORNENG and Cuban Exiles LIFEAT taps would be discovered by one of the local police agencies.

(5) Recommendations - It is suggested that a replacement be found as soon as possible to relieve GERENDE of his present LIFEAT duries.

### h. MISCELLANEOUS

Also on the payroll as worthwhile assets are GERENDE's brother-in-law, LIPSTICK-38, and his sister, LIPSTICK-40. GERENDE and LIPSTICK-38 process and prim all the LIMITED, LILYRIC, LICALLA and truck photos. LIPSTICK-40 does non-sensitive translation work for the Station. Both LIPSTICKS-38 and 40 are handled by GERENDE. They do not have contact with other agents or with station officers. LIPSTICK-38 receives a monthly salary of \$1,000,00 (MN). LIPSTICK-40 receives the equivalent or \$1.75 U. S. in pesos per hour for her work.

Although it is not adviseable from the security point of view to have any indigenous agent aware of all three of our LIMERICK photographic bases and the photo truck, the load on the Station photographer several months ago resulted in just such a solution to the problem. Previously, GERENDE and LIPSTICK-38 had processed only the photographs from LIMITED, LILYRIC and the truck.

### 5. RECOMMENDATIONS

Recommendations have been included in several sections of this paper.

These same recommendations, excepting those which have already been carried out or are in the process of implementation, are listed below in a composite form to facilitate the readers' overall comprehension.

- a. Continue the reorganization of communication arrangements with all agents.
- b. Relieve GERENDE of his LIFEAT duties (B GMORNING and Cuban Exiles taps) as soon as possible.
- c. Continue to use GERENDE for the time being as the principal agent in charge of LIMITED, LILYRIC, LICALLA, the Photo Truck, LIJERSEY, LIMITATIONS-5 and 6, and LIPSTICKS 38 and 40.
- d. Arrange a warning system of communications for removing GERENDE to PBPRIME should he be compromised to one of the local police agencies.
- e. Purchase a new photo truck for use by LIPSTICKS 2 and 24.
- f. Begin planning for a compartmented photo truck operation which will later permit termination of LIPSTICK-2.
- g. Spot and recruit at least three indigenous agents from the middle class social level to form the nucleus of a new LIJERSEY

surveillance team.

- h. Eventually separate GERENDE from either LIJERSEY surveillance team duties or the three photographic base houses, preferably the former. The two types of activities are not compatible with each other and should not be handled by the same principal agent.
- is the suggestion that GERENDE be given a "cooling off' and training period of two to three months in PEPRIME. Of course, this will not be possible until other assets are developed to take over GERENDE's present duties. After his return from PEPRIME, GERENDE could be used to develop new support assets which would be completely compartmented from all of his previous operations, personnel and activities.

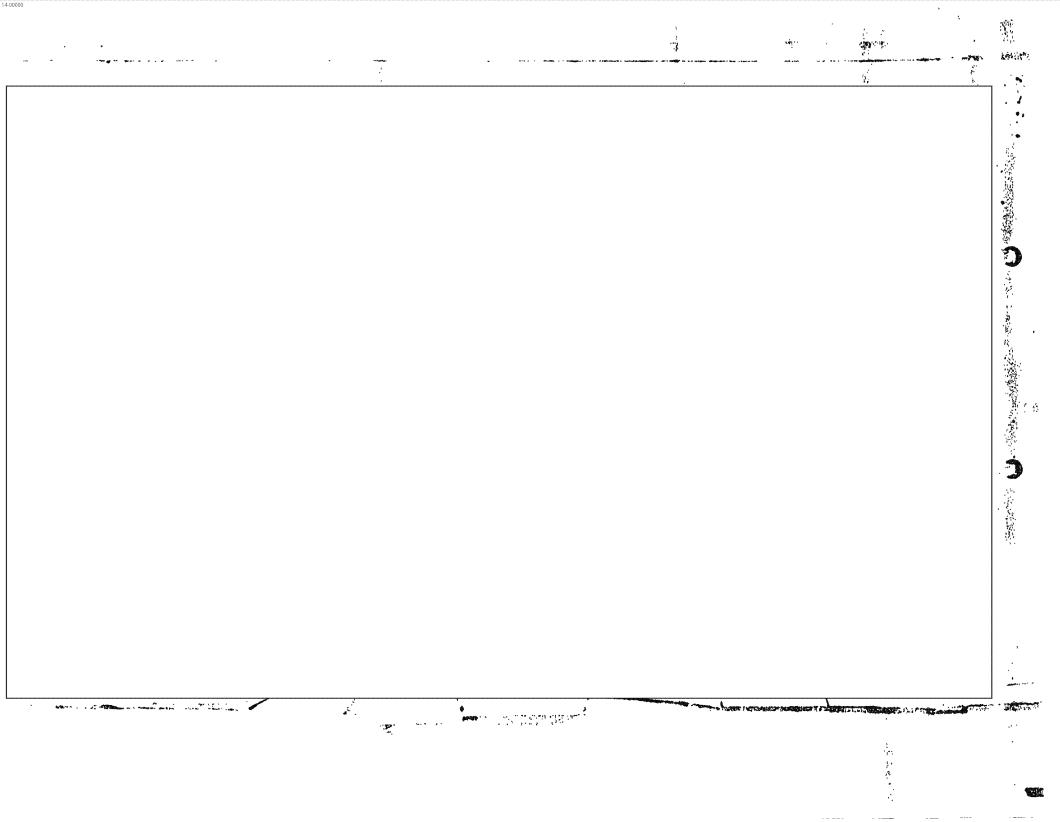

### 6. CONCLUSIONS

It would take several weeks of uninterrupted study of files to write a really comprehensive security review of GERENDE's operations and activities. However, based on the facts contained in this paper, it is the Station's opinion that GERENDE probably is not now known to the local police agencies as a KUBARK or FBPRIME agent. It is believed that GERENDE could be identified by the local police agencies at any time they choose to interrogate LIPSTICKS-12 and 30 in detail or when one of the other agent assets formerly or currently associated with GERENDE is compromised. Furthermore, if GERENDE is arrested, he could compromise most of the Station's support assets, plus the BGMORNING and Cuban Exiles portions of LIPEAT.

Given several months time, the slow process of compartmentation can be introduced into GERENDE's operations. Such compartmentation, however, will never reach the truly desirable point, but some improvement over the existing situation can be made. If GERENDE can emerge basically unscathed from the current incidents, then KUBARK will have an extremely valuable long-range support asset.

macifiza.

- e. That GERENDE be taken off LIFFAT at once and all suspicious audio equipment be removed from his home or offices. At present, LIFFAT is the only illegal activity being engaged in by GERENDE; if he is made merely in connection with his physical surveillance activities he is not likely to be hurt
- f. Concur preparations should be made to hide out GERENDE if it is known he is to be arrested.
- 4. Re para. 4 a, GERENDE's participation in LIMITED is 0. K.
  I believe no law is being broken. However, LIMITED is probably blown to the Soviets. Hencis the more real danger. Station should find out who is the registered owner of the phone at LIMITED. Prior to leaving I noted to \_\_\_\_\_\_ it was still held in the name of LIMES TONE-3 (now fired and hence a possible threat).
- 5. Re para, 4 b: This is the same situation as LIMITED but not so likely blown to the Soviets. There is no reason why GERENDE should not continue this work.
- 6. Re para. It c, LICALLA is a very special problem and should be taken up at once with Headquarters elements working on LIMESA/LIMUST. I thought LICALLA had been cancelled out when LIMESA began to shape up. I consider it a danger to LIMESA. Has LICALLA produced anything of value? I think we could vacate this in such a way that the agents in LICALLA would have no cause to be suspicious. (Put an obvious tail on the agent, scare him off, etc. This would throw off too, in the event they are already whise to LICALLA through LIPSTICK 17. We could pretend to believe the Soviets ran the tail and the game is up.)

Recommendation: Get rid of LICALIA unless very productive. Better do this before the remodeling begins.

7. Re para 4 d, photo truck. LIPSTICK-2 does know of the locations of some of the basehouses on LIFEAT since he was a line inspector.

#### Recommendations:

- a. New compartmented truck should be set up. Don't use false names and addresses. It could result in great harm.
- b. LIPSTICK-2 be sent off to some small town as "resident agent" for general work and to get him out of the area.

SECRET

8. Re para. i e. I have no particular thoughts on LIJERSEY but think it consistent for GERENDE to handle it.

	9.	Re	para	. 4	ſ:	GEREN	DE sho	ald be	taken	off	LIPEAT	at	once,

10. Re para. h g, LICOOL-7. I see no harm in GERENDE's harviling the operational aspect of this case. But through LIMITATION-5 the police could get back to LIMITATION and the main LIMITATION tap, that is, if they were able to make GERENDE talk before we could save hims. The danger to LIMITATION was not brought out in the Station's survey.

مرجدانفاله. ا

- 11. In re para. 5, recommendations
  - a. Approve.
  - b. Get his off LIFEAT right now.
  - c. Concur, but liquidate LICALLA.
- d. This needs some discussion. What do we do with GERENDE in the  $\mathbb{U}_{\bullet}$  S.?
  - e. Concur.
  - f. Concur with reservation noted above.
  - g. O. K.
- h. I don't see why he can't handle all these jobs since they are physical surveillances.
  - 1. Not a bad idea.
- 12. Final observations:
  - a. What is GERENDE!s cover?
- b. We must be sure he is not overworked. Sloppy work has resulted from people being overworked.

FROM : Instructor, Poreign Traincos

SUBJECT: Evaluation of trainee in Special Project LIPSTICK

- 1. Instruction in this project commenced 10 June and was concluded 12 July 1957. It covered tradecraft, observation, description, casing and reporting, principles of CEMI, elicitation and interviewing, investigative techniques, and TSS briefings in photo and the use of recording machines.
- 2. Trainee was known as "Ray". He was easy to work with.
  By was always pleasant, courteous, cheerful and seemed genuinely
  interested in every phase of the training. He can speak; read and
  write English without any difficulty.
- 3. Ray seemed well motivated; more Pro-American
  He possesses a strong interest in clandestine work. He is an avid
  reader. He demonstrated ability to apply principles he had learned
  from reading and study. He seemed possessed of initiative although
  there was a limited opportunity of observing this quality in action.
- h. While Eay's duties to date apparently have not given him a wide and varied experience in clandestine activity, he seemed to grasp the material quite readily; and although in the field of CIMCE he stated he had never thought of many of their aspects as applying to him, he seemed glad of the opportunity to learn and absorbed them quite readily. He now possesses a good working knowledge of fundamental principles involved. However, it is felt that if he is to work primarily in this field, it should be under the supervision of a case officer with considerable experience and background in this type of activity.
- 5. As previously indicated, Ray was an avid reader. In addition to certain case studies, he read the following books:

"Handbook for Spies"
"The Spy Web"
"Out of Bondage"
"London Calling North Pole"
"A Spy Has No Friends"

The following films were exhibited and critiqued:

"House Search"
"Surveillance"
"Body Search"
"Under Cover"

6. It is felt that Pay benefitted considerably from this course of instruction. We feel that his concept and understanding of principles of clandestine activity have been broadened and strengthened. His interest, enthusiasm and production should reflect this in his future work.
